

AN ODE TO NATURE

DELIVERING SUSTAINABLE VALUE

Through our core business and Group functions we are making a significant contribution to national and global developmental objectives. The United Nations Sustainable Development Goals (UN SDGs) provide the best articulation of what sustainable value should look like, setting a clear long-term agenda to end poverty, protect the planet and ensure prosperity for all by 2030. Alongside Terra's values of – respect, tenacity, integrity, passion and innovation – we are committed to playing our role, as a private sector Group, in the attainment of these SDGs, working with Government, civil society, communities and other businesses. We have identified and prioritised the following six SDGs, where we believe we can have the most meaningful impact, both directly and indirectly. Our approach on delivering to these goals is reviewed in more detail in our Sustainability Report 2019.

Ensure access to water and sanitation for all

Ensure access to affordable, reliable, sustainable and modern energy

Promote inclusive and sustainable economic growth, employment and decent work or all

Make cities inclusive, safe, resilient and sustainable

Ensure sustainable consumption and production patterns

Take urgent action to combat climate change and its impacts
